

THE Pennsy Diesel Icon is coming in HO!

A N N O U N C E M E N T

Baldwin Centipede, HO

EXPECTED DELIVERY: October '09

ORDER DEADLINE: 08/28/09

MSRP: 449.99 A-A set
249.99 A-Unit

Preproduction Sample Shown without road markings, etc. Changes may be made to final product.

Baldwin produced the famous "Centipede" diesel locomotives during 1945-48, and sold them to three railroads (SAL, NDM and PRR). The Centipedes were very large, 91½ feet long for single units as operated on SAL and NDM, and 183 feet (!) long for semi-permanently-coupled pairs as operated on the PRR. Each unit contained two 1500 horsepower diesel motors, so a pair contained four motors and totaled 6000 horsepower. Centipedes were heavy, totaling 1,200,000 pounds (1.2 million) for a pair, with more than 800,000 of those pounds carried by the 16 drivers. (Some content excerpted from the WWW) These spectacular diesel locomotives are a **MUST-HAVE** for any Pennsy diesel modeler as well as anyone who wants to showcase unique, premium quality on his layout. Don't miss these limited run diesel gems. Preorder today.

Industry-Leading Features OVERVIEW:

- Both Units: Feature the ALL-NEW Paragon2 SOUND & Control System
- Both Units: Integral DCC Decoder with Back EMF for Industry Best Slow Speed Operation in DC and DCC
- Both Units: Precision Drive Mechanism engineered for continuous heavy load towing and smooth slow speed operation
- Both Units: 5-Pole Can Motor with Skew Wound Armature
- Premium Caliber Painting with Authentic Paint Schemes
- Prototypical Light Operation with Golden White LED Headlight
- Operating Metal Knuckle Couplers
- Factory Installed Engineer and Firemen Figures
- Near-Brass Caliber Detail at a Plastic Price
- Minimum radius: **22" radius or greater recommended.**

Industry-Leading SOUND / OPERATION Features:

- Operates in DC & DCC (use DCMaster for DC sound)
- Auto Pilot (ATS) - Records and plays back sound and movement sequences for automated operation. (Macro Operation)
- 16-bit Sample Rate for exceptional high frequency sound clarity
- Playable Whistle for multiple whistle lengths and patterns
- Choice of 3 selectable Whistles / Horns
- Alternate Whistle / Horn where applicable for locomotives with air horn and steam whistle - both the main whistle and alternate can be easily played
- Adjustable bell ringing interval for faster or slower bell
- Numerous user-mappable functions with available keys
- Passenger Station Ambient Sounds - Controlled with Function Key
- Freight Yard Ambient Sounds - Controlled with Function Key
- Crew Radio Communications - Controlled with Function Key
- Maintenance Yard Ambient Sounds - Controlled with Function Key
- Grade Crossing Automatic Signal
- Correct Number of Diesel Motor Revs
- Simple Programming with Integral DCC Decoder
- Automatic Forward / Reverse Signal - When activated, stopping triggers a stop whistle toot. When moving forward from a stopped position, toots twice. When moving in reverse, toots three times.
- Engine sound intensity varies with load
- Individually adjustable sound volumes for each effect
- EZ Reset Button for quick return to factory default settings
