EQUIPPED WITH SYNCHRONIZED PUFFING SMOKE AND CHUFF

EXPECTED DELIVERY: Early 2010

ORDER DEADLINE: 09/18/09

MSRP: 549.99

UP 4-12-2, HO

The Broadway Limited Imports Brass-Hybrid 4-12-2 models include locomotives from classes UP-4 and UP-5 and are detailed as the prototypes existed late in their careers. All locomotives feature Boxpox main drivers, an enlarged straight stack, accurate sand dome, 6 external Brewster sand traps and complete air pump plumbing. The tenders sport modernized features including a crew grip box and stoker motor box. Two models faithfully reproduce the "E-2 Nine" relocated and redesigned cab, which has never been offered as a model. Being predominantly brass in construction, details unrenderable in other materials are beautifully included on the BLI 4-12-2. BLI has worked hard to reproduce the distinctive sound of these locomotives. Superb accuracy and attention to detail, combined with the fine running qualities of BLI models and outstanding Paragon 2 DC/DCC sound make these models a must for every model railroad collector and operator.

Industry-Leading Features OVERVIEW:

- Super-Heavy Weighted Brass Construction and Detail
- Features the ALL-NEW Paragon2 SOUND & Control System
- Integral DCC Decoder with Back EMF for Industry Best Slow Speed Operation in DC and DCC (1 smph @ 128 Speed Steps)
- Precision Drive Mechanism with sprung drivers engineered for continuous heavy load towing and ultra-smooth slow speed operation
- Drivers accurately quartered at 120 degrees for a 3-cylinder locomotive
- Fly-Wheel Synchronized Puffing Smoke and Chuff
- Grade & Load-sensing variable Smoke & Chuff Intensity (Less smoke and lighter chuff sounds when on a decline/less load; more smoke and belabored chuff when on inclines/more load.)
- 5-Pole Can Motor with Skew Wound Armature
- Premium Caliber Painting with Authentic Paint Schemes
- Jeweled Marker Lights & Operating Cab Roof Vents
- Operating Metal Kadee® Knuckle Couplers (2)
- Factory Installed Engineer and Firemen Figures
- Minimum radius: 22" radius or greater recommended.

AVAILABLE ITEMS

BLI2060 UP-4, 4-12-2, #9039, modernized, Wilson blow down system, Boxpox main driver, 6 external sand traps, standard cab, 18,000 gallon tender, black & graphite, aluminum lettering, Paragon2 Sound/DC/DCC, HO

BLI2061 UP-4, 4-12-2, #9048, modernized, Wilson blow down system, Boxpox main driver, 6 external sand traps, standard cab, 18,000 gallon tender, black & graphite, aluminum lettering, Paragon2 Sound/DC/DCC, HO

BLI2062 UP-4, 4-12-2, #9035, modernized, "E-2 Nine" cab, Wilson blow down system, Boxpox main driver, 6 external sand traps, 18,000 gallon tender, black & graphite, aluminum lettering, Paragon2 Sound/DC/DCC, HO

BLI2063 UP-5, 4-12-2, #9083, modernized, "E-2 Nine" cab, Wilson blow down system, Boxpox main driver, 6 external sand traps, 18,000 gallon tender, black & graphite, aluminum lettering, Paragon2 Sound/DC/DCC, HO

BLI2064 UP-4/5, 4-12-2, modernized, Wilson blow down system, Boxpox main driver, 6 external sand traps, standard cab, 18,000 gallon tender, black & graphite, UNLETTERED, Paragon2 Sound/DC/DCC, HO

BLI2070 UP-4/5, 4-12-2, modernized, Wilson blow down system, Boxpox main driver, 6 external sand traps, standard cab, 18,000 gallon tender, Varnished Brass, UNLETTERED, Paragon2 Sound/DC/DCC, HO

Industry-Leading SOUND / OPERATION Features:

- Operates with SOUND in DC & DCC (use DCMaster for DC sound)
- Prototypical Light Operation with Golden White LED Headlight
- Automatic Transit Scripting - Records and plays back sound and movement sequences for automated operation. (Macro Operation)
- 16-bit Sound System for exceptional high frequency sound clarity
- Mechanically Synchronized Distinctive UP 4-12-2 Chuff sounds and correct chuff / revolution rate
- Playable/Quillable Whistle for multiple whistle lengths & patterns
- Choice of up to 3 selectable Whistles
- Alternate Whistle / Horn where applicable
- Adjustable bell ringing interval for faster or slower bell
- Numerous user-mappable functions with available keys
- Reversing Mechanism Sound at Direction Change
- Air let-off, Air Pump, Blow Down, Pop-Off, Injector, Brake Squeal
- Passenger Station Announcement Sounds- Controlled with Function Key
- Freight Yard, Lumber Yard, Maintenance Yard - Controlled with Function Keys
- Grade Crossing Automatic Signal
- Simple Programming with Integral DCC Decoder
- Automatic Forward / Reverse Signal - When activated, stopping triggers a stop whistle toot. When moving forward from a stopped position, toots twice. When moving in reverse, toots three times.
- Engine sound intensity varies with load
- Individually adjustable sound volumes for each effect
- EZ Reset Button for quick return to factory default settings
- Much, Much more. See our website for further details
