Some users may find it desirable to disassemble their Zephyr Car units in order to install figurines, interior decor, or to paint. BLI has included a convenient tool to assist with this procedure. Please follow the steps below.

1. Pry loose the end clips (2)
2. Pry loose the body shell around truck frame by pushing tool as shown
3. Pry loose the body shell around truck frame by pushing tool as shown
4. Pry loose the body shell at car mid-section by pushing tool as shown
5. Pry loose the body shell at car mid-section by pushing tool as shown
6. Pry loose the body shell around truck frame by pushing tool as shown
7. Pry loose the body shell around truck frame by pushing tool as shown
8. Separate the body from the chassis
